REMARKS

Applicant would like to thank the Examiner for the careful consideration given the present application. The application has been carefully reviewed in light of the Office action, and amended as necessary to more clearly and particularly describe the subject matter which applicant regards as the invention.

The Examiner levied a restriction requirement on the application, asserting that claims 1-17 (Group I) are drawn to a method of making a composition and the composition made, and claims 18-20 (Group II) are drawn to an ink composition.

The Applicants elect to prosecute without traverse the invention of Group I (claims 1-17) and hereby cancel claims 18-20 as drawn to a non-elected invention.

The specification amendments correct spelling, usage, or grammar errors. The scope of the invention is unchanged by such amendments and no new matter is added hereby.

In light of the foregoing, it is respectfully submitted that the present application is in a condition for allowance and notice to that effect is hereby requested. If it is determined that the application is not in a condition for allowance, the Examiner is invited to initiate a telephone interview with the undersigned attorney to expedite prosecution of the present application.

If there are any additional fees resulting from this communication, please charge same to our Deposit Account No. 06-0625, our Order No. FER-14935.

Respectfully submitted,
